

OHIO TEACHERS DEFEND I. AND R. IN CONVENTION

Chicago Speaker's State-
ment Is Challenged By
Dayton Man.

DECLARES I. AND R. LAW DESTROYS STATE'S MANSHIP

Holds That Ohio Has Ceased
to Develop Big
Men.

Columbus, Dec. 31.—Closing sessions of the Ohio State Teachers' association were held today by a hot debate between Harry F. Atwood, of Chicago, and A. A. Marsellis, Dayton, Montgomery county superintendent, over the initiative and referendum and the recall. Others joined Marsellis in defense of these principles which Atwood attacked. Atwood declared that Ohio had ceased to be the mother of presidents since adopting the initiative and referendum which he termed "reactionism." "State officials," he said, "have simply become instructed automatons and mob psychologists instead of statesmen."

"Emma Goldman hasn't done anything worse in this country than the people have done in adopting the initiative and referendum and recall," he asserted. "You are not making big men here in Ohio since you put the I and R into your constitution. Your state is no longer the mother of presidents."

At this point Marsellis challenged Atwood and Atwood asked him to name the big men who believed in the principle. Marsellis said he referred to Governor Cox. Others then joined in the debate.

The Ohio State Teachers' association at the closing session of its three day meeting here today was expected to go on record in favor of the taxation measure for the relief of the schools and do everything possible to secure passage of the bill when the legislature reconvenes January 12.

At the suggestion of rural county superintendents, an amendment to the school revenue bill will be suggested to the legislature. The measure in its present form, rural superintendents declare would penalize centralized school districts and make it impossible for them to secure as much revenues as they are now getting. The bill would limit the levy for districts to three mills with an additional levy by vote of the people of two mills. Under the present system, centralized districts may go as high as ten mills.

No action is expected to be taken relative to the teachers' tenure of office bill.

The association does not favor the Wenner tenure bill now pending in the senate and a new bill was considered but it is said to be the consensus of opinion of the association that efforts should be concentrated at this time on the revenue measure.

With a view to giving elementary teachers a voice in the management of the state teachers' association, a committee on ways and means has been appointed to work out proposed changes in the constitution to be acted upon at the summer meeting.

Members of the committee are O. F. Barnes of Newark, chairman; W. F. Swain, Columbus; C. D. Perry, Waukegan; Mrs. F. M. Perkins, Toledo and Miss Frances Conkey, Cincinnati. No mention was made of the new state organization of teachers in this action.

It was explained by President Hawkins that the campaign was necessitated by the rapid increase in membership of the state association.

GIRL MAINTAINS HER INNOCENCE

Charged With Murder of J.
Stanley Brown at Mount
Clemens, She Denies Con-
nection With Crime.

Mount Clemens, Mich., Dec. 31.—Celeste Beatty, yesterday charged with the murder of J. Stanley Brown, a taxi cab driver, here shortly before 3 o'clock this morning, and placed in the county jail on the charge of murdering J. Stanley Brown.

The girl, who stoutly maintains her innocence in a taxi cab from Detroit where she spent Tuesday night under guard of a Chicago newspaper man who located here Monday night at Kalamazoo.

Mrs. Vester's arrival so early was unexpected and several of the county law officers had to be awakened to learn that the woman whose whereabouts since Monday have been carefully guarded had been formally surrendered.

The story she told the newspaper man and Chief of Police Straight, who it became known today, trusted her yesterday, will be carefully checked this forenoon and it is understood two persons previously questioned by the authorities, probably will be recalled for further interrogation.

Questioned this morning by Sheriff Caldwell, Mrs. Vester repeated the statements made to the newspaper men who located her. She maintained that she was in Battle Creek on the night Brown was shot at the wheel of his automobile. "From the statement," she said, "could be substantiated by Ben Sorenson, a Camp Custer soldier. Sorenson, it is understood, is still at Camp Custer. The wife of the slain man was filed in probate court today. By its terms the only homestead an one-half of the one from the estate is bequeathed to his widow. The remainder of the income is left to the elder daughter, Phyllis, five years old. To the younger daughter, Virginia, \$100 is left. The value of the estate was not given. It is generally expected, however, to be approximately \$50,000.

Chicago—Patrons of Chicago's cafes will be prohibited by police from bringing their "own liquor" into cafes on New Year's eve.

OPERATORS WILL GIVE AID TO COMMISSION

Chicago, Dec. 31.—Coal operators of the central competitive field, including Illinois, Indiana, Ohio and western Pennsylvania, yesterday completed plans to give the coal commission full information regarding their industry.

How far they will coöperate in the findings of that arbitration body, particularly in a wage increase in excess of 14 per cent, granted to the miners in the strike, is recommended, remains an open question.

The two-day conference here developed that the operators are set against anything that will raise the price of coal to the consumer as further increases will place the bituminous operators in competition with the anthracite and petroleum industries.

Many of the representative operators endorse a proposal that the government take some constructive action as a part of the strike settlement toward stabilizing the bituminous industry and put it on solid footing.

They point to the action taken by the Roosevelt administration in stabilizing the anthracite coal production and think this same course should be taken by the present administration.

CAR SKIDS AND UPSETS WOMAN DRIVER UNHURT

Mrs. Harrington Davis, residing in Eleventh street, had a narrow escape from serious injury last evening at 5 o'clock when her sedan car skidded and turned over just west of the dugway, near the Hawthorn barn.

Mrs. Davis had driven to Columbus and attended a reception at the home of a friend and left for this city early, driving the car and being unaccompanied. In coming down the Hawthorn hill the car started to skid and was uncontrollable, turning entirely around and finally plunging down the embankment on the south side of the road in the exact spot where a Columbus merchant met his death several years ago.

The car overturned with Mrs. Davis and she was unable to open the door and was forced to break the glass in one of the large rear windows and crawl through. She did not even receive a scratch and was not even shaken up. The car was slightly damaged but was brought home later on its own power.

Riley he had deferred making the application until after the war ending in order that he might not have to acknowledge himself to be a subject of Germany. He said he would wait until the peace treaty is signed and Alsace-Lorain formally is returned to France.

Detroit, Mich., Dec. 31.—An elaboration of its profit sharing plan, whereby all employees will be enabled to purchase certificates of investment in the company's stock, was announced today by the Ford Motor company.

Approximately 90,000 employees of the Ford company and its subsidiaries, Henry Ford and his son Edsel, it is announced, will be eligible to participate. In a statement accompanying details of the new policy, it is announced that the two steps outlined constitute a beginning, and that "other plans for enlarging the income and increasing the purchasing power of the dollar of our employees are under consideration."

The amount of bonuses, which will be in addition to the distribution of profits under the original profit sharing plan, will be based on an employee's daily wage and length of service. They will range from \$50, in the case of a worker in the company's service three months, and receiving the minimum wage of \$8 a day to \$250 in the case of the worker with five years of service, and receiving a wage of \$10.80 a day. Salaried employees receiving more than \$250 a month will participate proportionately, on the basis of the length and seniority of their service.

The certificates of investment will be issued in denominations of \$100, \$500 and \$1,000, and are to be non-negotiable and non-assignable. They will be restricted to employees in the actual and active service of the company.

The investment certificates are to be purchased only with wages received from the company with the bonuses received, not more than one third of the employee's wages may be thus invested. While the certificates are not negotiable and non-transferable it is stated that they may be left standing in the name of a deceased employee, at the discretion of the directors, to draw in.

HEALTH CODE IN EFFECT WITHOUT COX'S SIGNATURE

Governor Allows Amend-
ments to Go Into Effect
By Default.

WILL ACT ON NEW AUTO LICENSE BILL TODAY

Vetoes Measure Restricting
Net Fishing In Lake
Erie.

Columbus, Dec. 31.—Governor Cox today permitted the Griswold bill amending the Hughes health code to become effective without his signature. He vetoed the Dittus bill restricting commercial fishing in Lake Erie. During the day, the governor also was expected to take action on the graduated automobile license bill, the ten days period expiring today.

No reason was given by the governor for not signing the Griswold health bill. It was filed with the secretary of state without comment and became effective at once, as the legislature had enacted it as an emergency measure to take the place of the Hughes health code which would have become operative today.

The Griswold bill is less drastic than the Hughes code and gives more authority to local officials in administering the law. Many of the mandatory provisions of the Hughes code are made optional in the Griswold bill. Health districts may employ full or part time health officers and the state will pay half the salary in either case. Under the new law the expense of administration will be greatly reduced and the budgets are under control of the county budget commission, instead of under the district health council.

As much of the machinery had already been set up for administering the Hughes health code, it will be necessary to make several changes, it is said, under the new law before starting operation. Most of the changes, however, are not expected to consume any great amount of time.

In his veto message on the Dittus bill, the governor said the chief argument for the measure was that net fishing interfered with the spawning beds. He said evidence submitted to him showed that four-fifths of the fish caught in the nets were carp and it is true, the carp were a greater danger to the spawning beds than net fishing, also that the fish and game department had informed him that only five percent of the spawning beds are effected by the net fishing.

JUDGE BOLTON TAKES OATH OF OFFICE; NEW COURT WILL OPEN THURSDAY

First Municipal Judge Names Carlos Hanks, Jr., Joseph Dolan and Miss Wilma Cooperrider as Court Staff—Mayor Atherton Refuses to Surrender Private Office to Judge.

Justice Bolton announced today that he had appointed Miss Wilma Cooperrider as his assistant clerk and stenographer. She will begin her new duties tomorrow.

The first court to be held will be police court, providing there are any prisoners. The judge will continue the practice of holding that court at the city prison. All civil cases will be heard in the present council chamber, which will make an ideal court room.

Justice Jones will retain his present suite of rooms in South Fourth street and Justice Horton will assist in the new municipal court for a few weeks until the clerk and deputy become familiar with the new work.

NEW YORKERS TO HAVE BIG NIGHT

Regardless of Expense, Revenue Men or Consequences, Revelers Declare They Will Have One Last Fling.

New York, Dec. 31.—New Yorkers will celebrate in traditional fashion the hour tonight at which the ringing chimes and shrieking sirens will announce the arrival of 1920.

Revelers and wine bibbers of whom there still seem to be an appreciable number left, announced that regardless of prohibition, consequences, expense or revenue men, they would have one last celebration of their own sort. Unnumbered thousands planned to throng the "great white way" and send showers of confetti through an atmosphere agitated by the din from as many thousands of tin horns and cowbells. Church goers planned to attend one of the many watch night services. Forty revenue agents, some of them in evening clothes, will mingle in the gay rout of rare liquors, wines and cordials, in its various districts will be presented their guests without cost at midnight.

In the big hotels it will cost from \$5 to \$15 merely to sit at a dining table. For those who "take their own liquor," a charge averaging \$1.50 has been set for each cork extracted by a waiter. Levies for cooling wines will be proportionate. One chain of hotels, however, has announced that much of the more rare liquors, wines and cordials, in its various districts will be presented their guests without cost at midnight.

ASKS CHIEF TO EXTEND

Smith had requested his co-operation in the endeavor to avoid confusion brought about by the unavoidable delay in issuing license plates, a condition which is wholly the result of the new automobile law.

Registrar Snow informed the chief that the 1920 license plates will not be issued until the bill becomes a law is vetoed. If its validity is challenged in the courts, the automobile department will act on the court's order. SAYS STATE CAN FIX COLD STORAGE RATES IN STATE

Chairman of Utilities Com-
mission Says Law Con-
trols Companies.

CONTENTION SUPPORTED BY ACTION OF CLEVELAND FIRM

Believes Oil Storage Con-
cerns Are Public Util-
ities.

Columbus, Dec. 31.—Application of the Sheriff Street Market and cold storage company of Cleveland to the state public utilities commission for authority to issue stock to erect a new 12-story building has developed a new angle in the cold storage business which may have a bearing in all sections of the state and result in giving the state authorities more power in handling the high cost of living problem.

Beecher W. Waltemire, chairman of the utilities commission, said today that it is his opinion after a casual examination of the utilities law, that the commission has authority to prescribe cold storage rates for the Sheriff Street Market and Storage company and exercise supervision over it. It also the cold storage companies may be found to be subject to the law.

By applying to the utilities commission for authority to issue stock, the Cleveland company, Waltemire says, admits it is a public utility company under the class of utility concerns, furnishing heat and refrigeration service by means of pipes. He says that the utility law apparently classifies all such concerns, including services by means of pipes as utilities, and if this be the case practically all cold storage companies may be subject to the law. The fact that many companies do not furnish service outside their own plants, Waltemire says, probably does not change their utility status.

The Cleveland company's application was for authority to issue \$300,000 treasury stock, 10,000 shares at \$30 with which to finance the construction of a new 12-story building. The company's \$180,000 is to purchase a site. The application was heard today but will not be considered until next week when the full commission is present.

This is the first time in the history of the company that its stock has been put on the market. It is believed that the cold storage proposition has come before it and a complete investigation of the law to determine the commission's authority will be made in connection with the Cleveland case.

HOTEL THIEF USES PAJAMAS AS ALIBI

New York, Dec. 31.—Silk pajamas to support a sleepwalking alibi were part of the equipment produced by H. E. Shelley, self-styled soldier, actor and lecturer, and M. J. Gray, who were brought to court yesterday charged with robbing guests of sleeping pajamas here. It is alleged that they had secured thousands of dollars' worth of valuables.

Detectives who arrested the "sleepwalking" pair declare that the pajamas were used as a disguise for protection against sudden interruption by the plundering. If caught sneaking through the corridors, the men planned to feign slumber and plead sleep walking, the police assert. Shelley and Gray were held in \$2500 bond each for hearing.

Weil, assistant judge advocate in the Detzer trial, had promised him immunity from prosecution if he would make a statement implicating Detzer, similar to one made by Sergeant Frank Hoyt, who is alleged to have deserted in France.

NEW CHARGE MADE THAT JENKINS WAS IN PLOT

Mexico City, Tuesday, Dec. 30.—Reiteration of the charge that O. Jenkins, United States consular agent at Puebla, was seen in company with Federico Cordova, the bandit said to have abducted him, during the period that Mr. Jenkins held the post held by the outlaw was contained in a telegram from the governor of Puebla given out by the interior department here today.

Government witnesses, it is said, have "proved" that "friendly relations" existed between Mr. Jenkins and his alleged captor while they were at the villages of Santa Maria and San Bernabé. It was decided by the supreme court yesterday that the federal district court should have jurisdiction in the Jenkins case.

FORD EMPLOYEES

Interest and payments for the benefit of his dependents.
In announcing the new policy, the Ford Motor company states:
"It is believed that simple economic justice demands that a greater portion of the earnings should go to the employees and in part toward enlarging the industry. This policy carried out will mean that more men will be given opportunity to work with the company and to participate in its benefits, and that those employees who remain with the company will share increasingly in its earnings."
"The idea underlying the plan is that justice is greater than charity. That instead of spending money on men and for men in so-called philanthropic ways, it is better to give them opportunity to work at a wage that enables them to live like men, without charity, and by their own efforts to provide for their families and their future. There is no charity in it."

The "Fifty-Fifty" company which is to appear in this city at the Auditorium theater next Wednesday, has "sold the house" to Newark Post of the American Legion, and that organization will put forth every effort to sell every seat in the theater. The money derived from the entertainment will be placed to the credit of the fund to purchase and furnish a club house. There will be no advance and the regular prices for the attraction will prevail. \$2, \$1.50, \$1 and 50 cents, the latter for the gallery. It has just taken the road and the original New York cast will be seen as there is only one "Fifty-Fifty" company on tour. Wheeling, Zanesville and Newark are the only night stands of the company. Both the Legion and the Manager, Penberg guarantee this production.

WOMEN NEED SWAMP-ROOT

Thousands of women have kidney and bladder trouble and never suspect it. Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease. If the kidneys are not in a healthy condition they may cause the other organs to become diseased. Pain in the back, headache, loss of ambition, nervousness, are often times symptoms of kidney trouble. Don't delay starting treatment. Dr. Kilmer's Swamp-Root, a physician's prescription, obtained at any drug store, may be just the remedy needed to overcome such conditions. Get a medium or large size bottle immediately from any drug store. However, if you wish to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. COMMUNITY SING RECALLS FIRST CHRISTMAS HERE

Christmas and New Year's in Granville in 1895-96, just 114 years ago, was no gala-day affair although every family kept "Rube" company and every one had more "trees" than Santa Claus cared to use. In fact that benevolent gentleman was unable to make the six weeks' trip over the Alleghenies from Old Granville, Miss., which the "tree" had completed only about a month before Christmas.

They probably had community singing for they were a hopeful, cheerful company. But luxuries were unknown. The clothing they wore, the coverings on their beds were made from wool, sheared, spun, woven and made by their own hands. That first winter in the wilderness was one of hardship and deprivation which can not be conceived by the present generation. They lived for the most part in their wagons during that first winter on almost the identical spot where the town of Granville is now. The community celebration. Fires were kept going, baking was done in the ashes; cooking was crude, the meat had to be boiled in big iron pots difficult to handle. Wild turkey and other game abounded. Wolves prowled in the woods, Indians roamed the forests and many tears were shed for "the good old days back home."

As the crowds assembled round the glittering tree last week and the procession passed round the tiny park bearing colored lights and singing "Joy to the World," the thought occurred to several in the audience, "If those pioneers had been permitted to come back just for that occasion, how many present residents of the village would have been claimed as offshoots of the sturdy New England growth which has thrived so wonderfully in this western soil?" How many pioneer families are represented in the Granville of today? Will some one say? Does any one know?

HUNTS OWNER OF ABANDONED CAR

Watkin Thomas of the Thomas & Wright service garage, has just written to the mayor of Sidney in reference to the car (presumably a stolen one) which was abandoned here last October when Marshall Jos. Bailey and Alvin Wright had a running fight with the three suspicious characters who drove the car into town and who took to the tall timber on foot. The car has been traced from the factory in Toledo to Dayton and to Sidney—and there all trace is lost. In the meantime Thomas & Wright are holding it for its rightful owner if he can be located.

ORDERS MARKERS FOR VETS' GRAVES

Albert Norris, president of the Granville branch of the G. A. R., is ordering new markers for the graves of the soldiers of the civil war, who are buried in Maple Grove cemetery, and is carrying on the business, pertaining to the organization, in various ways. That Granville is one of the most patriotic of villages becomes apparent when one contemplates the long line of her men who have gone at their country's call to fight, in every struggle that has taken place since her founding in 1895. The village has always paid tribute to the memory of the dead and has honored in many ways the living who have fought for the flag. May 30th has been a great day in Granville designated as Memorial Day, and the surviving members of the G. A. R. have received recognition and honor by being guests at a supper of at least once a year given by The King's Daughters.

The list includes the names of Dr. C. J. Baldwin, who enlisted as a fighter, not as a chaplain, which office he holds; J. W. Berger, Henry Case, David G. Davis, Cyrus Evans, Rev. T. G. Field, A. Industrially he is caring on his farming interests and as side lines is interested in the gas business. He is president of the Granville Bank company and of the cemetery board. He is an official member of the Methodist church and superintendent of the Sunday school. He served for 26 years as superintendent of the Sunday school which meets in the Deveney school house in the community where he resides. He was elected lay delegate to the Methodist general conference in 1916 which met at Saratoga Springs, N. Y., and he has been elected to the general conference which meets in Des Moines in May, 1920.

In 1888 he was married to Miss Minnie Deardorff, daughter of General J. M. Deardorff of Springfield.

Mr. Graham will return to Columbus next Monday for a meeting of the finance committee of the legislature which takes the sundries bill a week in advance of the meeting of the assembly in order that all claims against the state may be passed upon and reported to the assembly.

Mr. Graham states that the amendment to the Hughes Health bill, which makes it more elastic, was passed by both houses and is now before the governor for his final action. The graduated automobile tax bill which passed both houses awaits only the gubernatorial signature to become effective. Under this law, municipalities and counties are to receive 50 per cent of the tax for local road purposes.

TRAVELERS CLUB PLANS SURPRISE

Mrs. A. K. Herrick, president of the Travelers' club has announced that the next meeting, which is to be held Monday afternoon in the community rooms is strictly a club family affair. The active members will assemble at 2:30 o'clock and the associates at 3 o'clock, to enjoy a surprise party furnished by the entertainment committee.

OBITUARY.

"I hear a voice you cannot hear
Which says I must not stay
I see a hand you cannot see
Which beckons me away."

Samuel Price Bush heard the call and passed on to her Heavenly Home December 26, 1919 at 11 a.m. at the age of 59 years, 6 months and 25 days, she being born in the northern part of this state June 1st, 1860. She moved to Granville with her parents when but 2 years of age and has lived here ever since. She united with the Methodist church when a young girl, where she kept her membership until her death. She was a faithful member of The King's Daughters. While her health would not permit her to attend all the meetings she was a liberal contributor and was never missing where there was special work for her to do.

She was married to George Bush January 1st, 1883. She was the mother of 3 children, 2 of whom died in infancy.

As a neighbor and friend Mrs. Bush was kindness itself and wherever she could lend a hand or be a help in any way, there she gave willing service and many were the recipients of her kindness. She leaves her husband, one daughter Mrs. Charles Williams, four grandchildren, three brothers, two sisters and many other relatives and friends.

"Tis hard to break the tender cord
When love has bound the heart
'Tis hard, so hard to speak the word
When we are called to part."

But one by one hopes grow brighter
As we near the shining shore
For we know across the river
Wait the loved ones gone before."

NEW YEAR'S DAY.

Human instinct from earliest time has made much of the beginning of a new year. The completion of another milestone is a notable event in the life of a man or of a nation. One is reluctant to see the years' slip into the shadow without making some note of their passage.

Harassed by trials and grudges, many people are glad to see the old year go, and look on to the new period without much pleasure. If one has the right attitude, the star of hope should always be shining along the pathway ahead, even if the clouds linger over present scenes.

Each year ought to bring new gifts and experience and achievement. The wayfarer has paid down one year of his life, and if he has been wise he has made old Father Time give him some fruitings in return. He will not wish to live over the past, but he will look ahead confident that he can avoid some previous mistakes, and attain results previously out of reach.

Cheery hearted people like to laugh at the passing years, and show that they are just as young as ever. In these droughty times, New Year will not be the halcyon and victorious time of yore. But people will find that they can celebrate without creating raw material for a sick headache. The dancing crowd will feel that the dramatic moment of midnight adds a new zest to their frolicsome feast.

In silent churches and many quiet homes, waiting hearts will listen for the booming bells that announce one more journey completed around the great circle. In these thoughtful scenes the mind seems to rise above the limitations of earth and to realize the vastness of the universe. God will be thanked for many mercies. The heart will cheerfully open the door to the veiled unseen that lies beyond.

Among the people who kick on the price of paper, are the big city publishers who have done so much toward making paper scarce by printing 75 to 100 page editions.

The people who kicked the hardest on standing in line for sugar, now make the most complaint at the higher price that is necessary to encourage more production.

Many folks who complain of shortage of production, are the ones who take good money needed to develop productive resources and put it into wild cat schemes.

After a warm winter the price of ice goes up because it is scarce, and after a cold winter it goes up because the crop is harvested under difficulties.

Among the people who are getting the grip and the Reds, and the symptoms are felt in the back of the coat collar and the slack of the trousers.

Latest bulletins from the infernal regions are that the devil has issued a statement denouncing New Year resolutions as an admission of weakness.

A large number of wage earners are now getting ready to walk out because the cost of living has been increased \$2,000,000,000 by strikes.

So far none of the critics of the United States Senate has denied that it is the greatest debating society in the world.

Bad time for the shortage of nails, with all the campaign lies that have to be nailed down this coming year.

Elderly people are greatly perturbed over the sanitary perils of the kissing habit.

NEW YEAR'S RESOLUTION.

The Dilettantes:—To talk more, and work less (if possible).
The Motor Speeders:—To run down the impudent people who venture to cross the streets instead of staying on the sidewalks where they belong.
The Congressmen:—To stand for right economy, but make sure that their districts get their full share of the pork and a little more.
The Newark Knockers:—To prove that their home town is a dead one, and then to throw cold water on anyone who attempts to liven it up.
The Out of Town Buyers:—To promote the prosperity of any old place in the United States except the one where they live.

GIRLS EXCEL.

(Canton News.)
The Cleveland Plain Dealer has announced the results of a Christmas story writing contest open to pupils of the senior and junior high schools of the city. Every one of the prizes was won by girls, and entrance into the proportion of nine girls to one boy.

The experience of The Plain Dealer in this contest provides another demonstration of what is being more and more recognized—that boys in the high schools are being pushed aside by the more energetic and enthusiastic girls. The lack of serious purpose and application in studies on the part of so many boys is probably the principal reason why they are falling behind the girls in their school work. Girls, as a rule, take considerable more pride in their work than do boys.

The problem faced by nearly every instructor in the public schools is that of overcoming the indifference which so many boys show in their school work. With few exceptions they seem to be satisfied with merely passing the requirements of the study course. Some of them do not have pride enough to work to do that.

If women are crowding men in business and professional occupations it cannot be explained by the claim that their services can be secured for less money. The distinctions between the sexes in the matter of salary are coming fewer and soon they will not be known where important work is to be done.

If the men of today have reason to complain that they are being supplanted in business and industry by women, it would seem that the young men will have more reason to complain of their competition within the next five years. The school records almost make this certain.

LATEST ROCKEFELLER GIFT.

(Ohio State Journal)

A hundred million dollars to help give education and health to the people of the land is the notable Christmas offering of John D. Rockefeller. To use his own words, it was given to promote the well-being of mankind. It was a monumental offering for a laudable and practical purpose, from which large results may be expected. The offering comes at an opportune moment, in that it will supply funds to aid the distressed places of higher education, where small salaries were forcing competent instructors to secure other work and abandon their classes, however much such a step was against their own wishes. College professors must live and small salaries with war prices brought problems that were impossible. They had to seek other employment. It would be a serious matter for the land were the places of higher education continually embarrassed by lack of competent instructors, and as the Rockefeller fund will largely prevent this embarrassment, it is of the highest value to the public. Funds placed at the disposal of the medical experts in research and development work are money used to relieve humanity of a part of its lead of suffering. Education is better than cure, and that doctrine is being applied as never before by the medical profession. The Rockefeller fund will permit further research work, will help complete that under way and contribute no small promise of help to the humanity of the future. To have made a material contribution to the health and education of mankind is a service the value of which only the great records in the future will show.

A SELF-GOVERNING INDIA.

(Cleveland Plain Dealer.)

The measure of home rule granted India is in no small part a product of the war. Autocracy in government is going out of fashion. Popular rule gains strength everywhere.

What Great Britain is now to do in her great Asiatic possession is precisely what the United States has been doing in the Philippines ever since the fortunes of a previous war brought these islands under the American flag.

She entrusted elected representatives of the Indian people with a definite share in the government and holds out the promise of a fully responsible government sometime in the future.

Men of India fought bravely for the common cause against the central powers. Any idea of a wholly independent India was long ago abandoned by all but a few irreconcilables, and the present grant of power will be accepted as an act of justice and the promise of an unclouded future. India is headed toward a future condition like that promised to the Philippines but toward such a status as that enjoyed by Australia or Canada. So complete a measure of self-government will doubtless be a long time coming, but the ultimate aim is nothing less.

A new day dawns in government of the world over. The old autocracy bows to democracy. Rule by the masses ceases to be a mere slogan and becomes a rule of action.

is extremely ancient, but we have little information about it until the time of the Saracens. Its use as a covering for walls is attributed to the Flemish, previous to 1600, at which date it was introduced into France by Henry IV. At first the Saracenic tapestries were only figures; but the Flemish enriched them with historic subjects, and so important did this art become that eminent painters, from Raphael down, made cartoons to serve as copies to the tapestry workers.

The discovery that Carranza agents had been purchasing arms in Belgium and Spain is now supplemented by information that Germany has been endeavoring to smuggle machine guns to the Mexican chieftan. The exportation of war material by Germany is a violation of the armistice and peace treaty. It may be possible that the German firm considered the transaction merely as a good stroke of business. In all German-Mexican matters, however, there is a suspicion of German desire to injure or imperil the United States.

The failure of the German government to prevent the export may indicate inefficiency or it may indicate a solicitude to aid Carranza in whatever project he may have in mind. Both Germany and Mexico must be watched. The two are fit partners, but for practical reasons the world in general and the United States in particular cannot permit the partnership to get on a working basis.—Ohio State Journal.

Rejoicing because the year 1919 has bestowed upon us growth, success and a satisfied patronage beyond our expectations.

We are fired with the desire to undertake bigger things, greater assortment, better service, still better values and serve many more patrons satisfactorily. Yes, to do still better as each day passes is our aim.

The entire Davies organization takes pleasure in thanking you for your many courtesies and hopes that good health and the spirit of rejoicing may be with you and yours throughout the year.

Milady's Boudoir

Beautiful Hair.

It is within the power of almost every woman to have a good head of hair, but by some such a gift can only be enjoyed as the result of much care and constant to the laws of health. While the constitution of the hair is largely a function of the physical condition, yet certain characteristics are the result of fastidious care and cultivation. Unkempt, tousled hair, powdered with dandruff, is always a repulsive sight.

At all times the hair should be kept clean and the hands rubbed together in much prolonged and it may be controlled more easily when the coiffure is being arranged. Should one prefer to shampoo their hair at home a very careful selection of the soap to be used should be made, and then the same kind of soap should always be used. Some prefer using soft soap instead of rubbing a hard cake of soap directly on the head.

Dull, lifeless hair may be made to glow by treating it as follows: Comb the hair straight and then divide it by small partings. The hands are then heated and a drop of oil is put on the palms and the hands rubbed together until they are shiny. Then they should be rubbed over the various partings.

The hair is then again parted and the scalp massaged until it shines along the partings. Two drops of oil are sufficient to impart life and gloss to the hair, still it is not enough to leave any trace of grease.

Dull hair is often nursed back to life by the rolling process. Each night and morning, when the hair is straightened with the comb, it is parted from the center back to the front, making two divisions. After the hands have been heated and oiled as directed, each parting is rolled beginning at the head and traveling the length of the tresses. Then rub the hands gently all over the partings.

Every mother should know that nothing is more important to a child's physical well being than the proper assimilation of the food it eats. And in order that this may take place, good teeth are essential. The mother should know that digestion begins in the mouth, and in order to masticate the food, good sound, strong teeth are necessary.

From the minute the first tooth appears in your child's mouth it should be wiped with a clean cloth, listened a little, at least once a day. As the teeth grow they should be watched closely and brushed, when the child is old enough to chew, after each meal and before going to bed at night. This last brushing is really more necessary than you think, as if a particle of food is left in the mouth during the night, it has a tendency to form an acid which is injurious to the teeth.

Should the first teeth show signs of decay, the child should be taken to a dentist at once for advice. Brown bread, graham bread and rye bread should be given to children. They require it for the foundation of bones and teeth as it contains phosphates of wheat. When the children are very small, I think a cloth for the teeth is enough as the bristles of an ordinary brush are too stiff and are apt to injure the delicate gums.

A LIBERAL OFFER BY LICKING CREAMERY COMPANY

To the Users of Milk and Cream From Its Retail Wagon.

The Licking Creamery Company begs to announce that until further notice it will make a regular monthly award of two (2) \$1.00 sheets of milk tickets upon each of its retail milk wagon routes to private consumers of milk and cream throughout the city.

The awards will be made on the 15th day of each month.

A duplicate receipt stub from every sheet of tickets sold during the preceding month will be placed in a box from which the stubs to receive awards will be drawn by a disinterested party. Each route will be handled separately.

THERE IS BUT ONE CONDITION QUALIFYING THESE AWARDS.

All competitors must have their accounts with the Licking Creamery Company paid in full for the month preceding the one in which any given drawing occurs.

In other words, should a duplicate of one of your ticket receipt stubs be drawn on the 15th of one month, you would not receive an award unless your account was paid in full for the month preceding.

This is absolutely the only requirement made, thereby characterizing this proposition as being extremely clean cut and liberal.

We hope it will please the public. Watch for the next drawing. Your name may be among the fortunate ones to be announced in the papers following the next drawing.

ALMOST A HUSBAND

By Opie Read Directed By Clarence G. Badger

"Almost a Husband" is a truly delightful photoplay. It is a comedy that has strong dramatic action. The captions were written by Will Rogers, himself, and he is considered the drollest and wittiest man in America. You must see it.

AMUSEMENTS**AUDITORIUM.**

Last Night's Show.
The Al G. Field minstrels played to two capacity audiences yesterday. Manager George M. Fenberg of the Auditorium being compelled to turn down scores of applications for reservations for the evening performance. There is but little change in the personnel of the Field organization in the last few years and the honors of funmakers go to Billy Beard, Lasses White, Johnny Healey, Jimmie Cooper and Eddie Ewalt, the latter a Newark

preparation for more than two years and employed the services of the best scenario writers, most competent actors, clever directors and most efficient photographers that could be secured and in addition it has been supplied with a descriptive music score, composed by Joseph Breit, who wrote the famous accompaniments for "The Birth of a Nation" and "Intolerance." An augmented orchestra also comes as a special music feature. The theme of this wonderful drama is the story of peace, of democracy, of

boy, who sang "That Chocolate Colored Girl of Mine" in the first part and who also did his famous Cootie dance in the duo later on. Jack Richards and Billy Church, two old time favorites in this city, were the leading ballad singers and as usual carried off the honors. The Field show was up to its usual standard and pleased all who witnessed it.

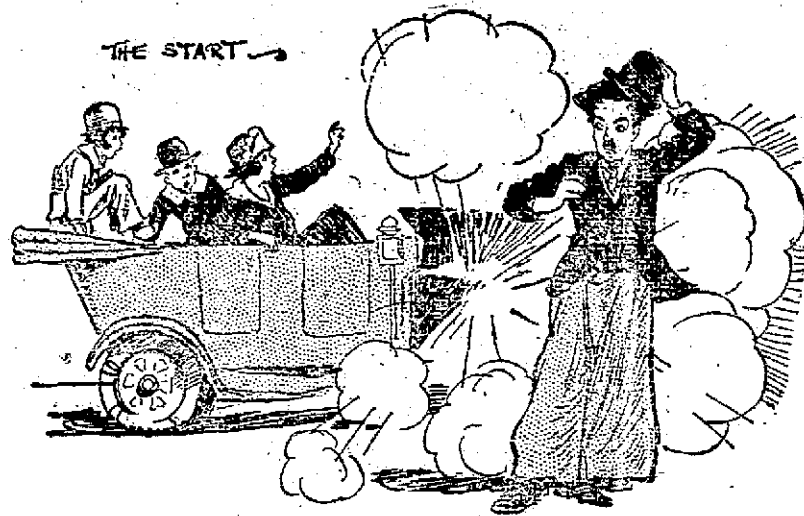

"The Birth of a Race"
Direct from a long and successful run in Chicago, the big photoplay, "The Birth of a Race," comes to the Auditorium theater today only. This great drama of the films was in

brotherhood. It traces the history of world advancement from the Garden of Eden to the dawn of peace, in the present year of our Lord. It is one of the most graphic histories of the world ever presented for the enlightenment, entertainment of the people. Perhaps no great photoplay has ever been prepared with more earnest care, more historical research, more truth and eager effort for dramatic effect than "The Birth of a Race." No lover of unusual pictures should miss the opportunity of seeing this production. The showings are through the supper hour. Continued on Page 9, Col 2)

PAINTING STAGE SCENERY IS PLAY, NOT WORK, SAYS YOUNG WOMAN WHO DOES IT

Miss Mabel Buell.

To be a scenic artist at twenty-one with five years' experience to one's credit at that early age is something unusual for anyone, but when the person in question is a slight little blonde girl one simply has to investigate. This is what the investigator finds out about Miss Mabel Buell and the unusual career in which she is steadily climbing to fame and fortune.

She lives in New York city and has been creating scenery for stock companies and vaudeville teams since she was a slip of a girl, sixteen. She thinks perhaps she inherited her "work" for her father, Horace Hervey Buell, was well known for his scenic and portrait painting in New York and elsewhere in the country. When in London doing scenery for a theater there Mr. Buell sent his little daughter to an art school to study Mabel was but a tiny kiddie then with short skirts and long pig-tails but she studied in the same class with grown-up professional artists.

Mr. Hart always excels in a role wherein he is seen as a daredevil of the open country and this is described as just such a part—one with plenty of speed, red-blood and that desirable quality known as "pep." The star is his own director and is sparing himself nothing that will make the picture most effective.

Some elaborate sets were constructed for the new picture. The cast is exceptionally fine. Sam Owen being the leading woman. Others in the cast are Bert Sprott and Buster Irving. J. C. Howls wrote the scenario for Mr. Hart. It is one of the best things that Mr. Hart has ever produced and that is saying much for he is a prolific as well as successful scenarist.

Almost a Husband.

Will Rogers, formerly of the Follies, now a Goldwyn star, will be presented in "Almost a Husband" at the Alhambra theater, beginning Friday. The story is a pictureization of the sympathetic "comedy of village life" which, under the title of "Old Hennefer," made its author, Ope Reid, famous. The picture was directed by Clarence Badger. Peggy Wood, who starred in "May time" for the past two years, plays opposite Will Rogers; while Clara Horton and Cullen Landis, who made individual "hits" in the leading roles of Rex Beach's latest Alaskan picture.

but Sam, making a fortune by a story, brings his money, with a dozen bags of bolts marked "cash," and saves the day. Then he turns the crowd to Zeb, who is chased from the bank, thrown into the river, and is drowning when Sam leaps from a cliff, swims to his rescue, and saves him. Sam returns and offers to sign the petition to free Eva, but she tears up the petition and decides to remain married for good.

LYRIC.

The Worrell's Virginia Belles company is continuing to give high class satisfaction at the Lyric theater. The bill changes today to "Moving Around" and the picture feature is "The Trail of the Octopus." There are many new specialties introduced in this new bill, and you will surely enjoy the entertainment if you visit the Lyric.

GRAND.

This evening marks the final appearance of Miss Alice Joyce, in one of her best pictures, "The Winchester Woman." This is truly an interesting picture in which Miss Joyce appears to an exceptionally good advantage. The company supporting is highly capable. A large crowd witnessed this picture yesterday and were immensely pleased. The added feature is a Sunbeam comedy "Fabulous Fortune Punters." Tomorrow comes that sterling actor

AUDITORIUM.

Fifty-Fifty.
The exhilarating musical comedy "Fifty-Fifty" gorgeously gowned and full of spontaneous wit will be at the Auditorium Wednesday evening, January 1st. Coming here direct from its Comedy theater, New York success. William Gillette has written a merry farce that is bright and snappy and Harry Carroll and Harold Atteridge's music and lyrics are marked by congeniality.

"Fifty-Fifty" is founded on William Gillette's farce comedy "All the Comforts of Home." The story briefly concerns an impetuous scoundrel called Kenneth Patterson, who is put in charge of the apartments of his uncle, who, with his family, has gone on an

extended journey. It occurs to him that he might turn a dishonest penny by letting out the rooms entrusted to him. Attracted by the announcement that they will have "all the comforts of home" in the apartments, a number of tenants come to terms with the youth.

The complications which arise when these incongruous tenants find themselves under the same roof, may be better imagined than described. When the confusion is at its height, it is interrupted by the untimely return of the owners of the apartments and, after much effort spent in clearing up the misunderstandings, order is restored and Kenneth wins the hand of the prettiest lodger. The piece is full of quick, reckless abandon in acting, which makes an audience forget all

Mr. Herbert Worthell is the featured player in "Fifty-Fifty" and he is supported by a long cast of well-known artists, which includes Barrett Greenwood, Florence Brown, Ottilie Corday, Dorothy Quinette, the Gosman Twins and many others besides a chorus of bewitching girls whose efforts in a long program of musical numbers are said to be among the production's most attractive features. This attraction goes to the Hartman theater, Columbus, from Newark.

Breed of Men.

William S. Hart's new Aircraft picture "Breed of Men" is a story of a land development scheme in Arizona and the unprincipled methods of a land shark are exhibited in all their bald and heartless details. Mr. Hart appears as a bad man who becomes sheriff and finally rounds up the individual who has swindled all kinds of people out of their money. The picture will be shown at Alhambra theater today and Thursday.

Many of the big scenes were filmed in Chicago at the stock yards while the Thomas H. Ince Aircraft star and his party were in the Midwest on their way home from the star's wonderfully successful Liberty Loan tour. The picture was completed in Hollywood and in Los Angeles. There is some wild riding and plenty of thrilling action and from all appearances the story will be one of the breeziest the favorite

have important parts. The story of "Almost a Husband" follows:

Sam Lyman (Will Rogers) arrives by boat in a Mississippi river town to teach school. He is a Lincoln type of man, honest, hard working and bashful. He assists a poor family, helps the sick editor of the paper, and becomes a hero in the eyes of the village.

Banker McElwyn (Herbert Standing) gets involved with the bank's funds through the scheming Zeb (Ed Brady), a male dealer, who threatens to withdraw his deposits unless McElwyn gives Eva, his daughter (Peggy Wood), to him in marriage. The girl objects. The father implores. Sam overhears Zeb's threats while waiting to see McElwyn about a loan for sending the sick editor to Arizona.

At a forfeit game Eva has to "marry" the first man who enters. He happens to be Sam. The "ceremony" takes place, conducted by a divinity student, who afterwards informs the party that he has just been ordained. That, the rate father says, is not legal, because here was no license, but the minister announces that a new law requires no license. Zeb and the father are furious. But Sam and Eva decide to remain "married" until she desires him to sign a petition for annulment.

Lyman and Caruthers (Sidney De Gray) form a law partnership when Lyman is asked to resign from the school unless he releases the girl, which he refuses to do. Zeb plans to scare Sam out of town by having the night riders, his aide's household him. He fails. Then Zeb inflames the bank's

H. B. Warner, of "A White Man's Chance" fame appearing in his newest picture "The Grey Wolf's Ghost" by that master of fiction Brete Harto. These who have seen this picture claim it is the best effort Mr. Warner has ever made. The added feature for this picture is Harold Lloyd in his \$100,000 comedy "Bumping Into Broadway" a two reeler which has action every minute.

The Perennial Issue.

What ever the issues spouted about on the stump next year, underlying it all will be the same old inability of two sets of patriots to occupy one set of offices at the same time.—Greenville (S. C.) Piedmont.

ROTES PLAN ACTIVITIES FOR NEXT 12 MONTHS

Newark Rotarians indulged in an ex-
pensive "meeting" last night at the
Atlantic Temple. Under the leadership
of Frank L. Beggs, who presided in
the absence of President C. H.
Spencer. Numerous Rotes in short
speeches reviewed the work of the club
during the past year and suggested ac-
tivities to be undertaken during 1920.
Among those who took part in this in-
formal discussion were Rotarians
Frank L. Beggs, W. C. Kuster, J. How-
ard Jones, W. C. Metz, J. E. Callender,
John C. Swartz, Clark B. Hatch, Clay
Van Voorhis and Rev. Carlos Hanks.
On motion of E. C. Wright the club
voted to contribute the sum of \$200
for the support during the coming year
of the five French orphans who have
been provided for in the year just ended
by the Rotary club.

Among the New Year's resolutions
announced by various Rotes were a
strong line of business talks by club
members, definite activities along chari-
table and philanthropic lines, a more
intimate acquaintance with fellow
members and an intensive "pep cam-
paign" within the club itself.

The membership listened with inter-
est to Dr. C. L. Williams of Denison
university who explained in his inimi-
table fashion how glad he was to be
an honorary member of the club and
how sorry he was not to be an active
member.

HOLD GROCER FOR SALE OF WOOD ALCOHOL DRINK

New York, Dec. 31.—Charged with
selling liquor responsible for seven
deaths from wood alcohol poisoning in
Passaic, N. J., L. Cicero, a grocer, was
arrested at his home here today.
Search of his home resulted, the police
say, in the seizure of a barrel of
liquor, five 5-gallon tins of supposed
whiskey and two 3-gallon bottles, one
containing whiskey and the other un-
diluted wood alcohol.

Herman Morris and Frank Hipper
were arrested in Passaic last night. It
is charged that Cicero sold the whiskey
to Hooper who sold to Morris and Mor-
ris disposed of it to Passaic saloon keep-
ers.

The Catbird.
I hardly know whether I am more
pleased or annoyed by the catbird.
Perhaps she is a little too common,
and her part in the general chorus a
little too conspicuous. If you are
listening for the note of another bird,
she is sure to be prompted to the most
loud and protracted singing, drowning
all other sounds; if you sit quietly
down to observe a favorite or study
a newcomer, her curiosity knows no
bounds, and you are scanned and ridi-
culed from every point of observation.
Yet I would not miss her; I would not
unduly subordinate her a little, make her
less conspicuous.—John Burroughs.

Tonight's games—B. and O. vs. Holo-
phane; Midland vs. Wentworth; Alumni vs.
Hi School.

Friday night—B. and O. vs. American
Bottle; Midland vs. Burke Golf.

Rarely are three games ever played
in one evening but the fact that it is
New Year's eve gives the opportunity
to put it across. In addition to the
regular double-header scheduled for
tonight, the high school alumni will
play the variety in the third battle at
Hickey hall.

Special news for the fans is in the
fact that the games postponed from
last Wednesday night including the big
game between the B. and O. and the
American Bottle company will be
played off Friday night of this week at
Hickey Hall. First game called 7:30.

A good sized crowd appeared last
night at the Industrial league games,
showing that the interest in basketball
growing. The American Motor
Truck played the league leaders off
their feet in the early part of the con-
test but lacked the punch during the
latter part of the game to put the re-
sults in their favor. The team work of
Allen and Young was conspicuous as
well as was the guarding of Brunner
and Schlaugher. Score, first half,
Motor Truck 6, Bottle company 3. Final
score, American Bottle company 14,
American Motor Truck 12.

The second game last night furnished
its thrills in everything but the score.
Bearing the apocalyptic name of
Hesley and his foul throw scored the
only point for his team. The golf men
made the Hesley team hustle but the
clever pass work of the glass men shot
them in the scoring almost from the
onset. The game was a close one. The
Diamond-H men are to be watched as
they give every indication of making
the league leaders take their smoke
when they clash next Tuesday. Olson
and Ruten scored heavily in the game
each ringing 9 goals.

GREAT DAY FOR PERSHING'S HOME TOWN WHEN GENERAL RETURNS

Main business street of Laclede, Mo. Crowd trying to get view of Gen. Pershing upon his arrival. Below: Gov. Gardner reading his address preparatory to presenting a gold medal to Gen. Pershing on behalf of the state of Missouri. Pershing's son, Warren, at the left.

It was a great day for Laclede, Mo., when General Pershing returned for a day to his old home town. The whole town was decorated with the American colors, and everybody turned out to pay tribute to the great military leader who as a barefoot boy walked the streets of Laclede. The formal ceremonies included the presentation of a gold medal to General Pershing on behalf of the state of Missouri.

The speechmaking was on the steps of the Pershing home. In his speech of acceptance Gen. Pershing was several times on the verge of breaking down, especially on referring to his parents, particularly to his mother.

GUARDS CROSSING 40 YEARS; PREVENTS ACCIDENTS AND WINS COMMENDATION

The December issue of the Baltimore & Ohio Employees magazine contains several news items of interest to the Newark division in speaking highly of the efficiency of the employees of this division. It also contains an excellent likeness of the well known East Main street crossing watchman, Frank Reel with the following news item.

Frank C. Reel has been crossing watchman at East Main street, Newark, Ohio since 1879 for forty years. During this time there has been no accident or personal injury on this crossing, with the heaviest traffic in the city.

In addition to this remarkable record, Mr. Reel undoubtedly saved the life of a lady pedestrian, Miss H. A. Goodwin who fell in front of an approaching engine by running in front of the engine and seizing and dragging off the track just in time to prevent her being run over. This meritorious act was not only commended by our management at the time but was given special mention in our local newspapers of January 14, 1899.

He also discovered a broken wheel flange in a northbound freight train on December 7, 1901 and reported it to the dispatcher's office.

Mr. Reel's father was an engineer on the Baltimore division in the early days of the railroad, having run the third engine dispatched out of Baltimore Terminal. He was in the service up to the time of his death.

Frank Reel entered the service of the company at the shops at Newark, Ohio in 1878, where he worked until 1879, when he was transferred to the position of crossing watchman. His extreme vigilance and carefulness are known to everyone in our city, and have been the source of frequent special mention in the local newspapers.

PALE, ANEMIC GIRLS NEED A BLOOD TONIC

Pepto-Mangan Enriches and Builds Up the Blood.

Pallor, Headaches and Shortness of Breath Disappear.

Pepto-Mangan Sold in Liquid and Tablet Form.

Why should any girl or young woman continue to have a pale, sallow complexion and a listless, run-down system devoid of energy and vitality? Such young folks are continually unhappy and dejected simply because they accept such a condition as their misfortune and envy their friends who are in the bloom of health and enjoying all the good things of life.

If such young women would realize that their anemic condition is probably due to thin, impoverished blood which could easily be enriched by Gude's Pepto-Mangan, how much happier and attractive they would be.

Gude's Pepto-Mangan is a safe, beneficial and pleasant tonic for anyone suffering from any ailment caused by poor blood. It taken regularly for a few weeks it will enrich the blood with thousands of the healthy, red blood cells that are needed to carry nourishment to every part of the body.

Pepto-Mangan is sold in both liquid and tablet form. Both contain the same medicinal ingredients.

Buy Pepto-Mangan at your druggist's. Be sure the name "Gude's" is on the package. Without "Gude's" it is not Pepto-Mangan—Advt.

LIEUT. BROWN TO BE ON DUTY AT SAN DIEGO

Lieutenant James A. Brown, a physician in the navy is at San Diego, Cal. today at his ship was not delayed on the trip from the Panama canal zone. He has been assigned to the naval station at San Diego and expects to be stationed there for three years.

Lieutenant Brown wrote an interesting story of his trip through the big ditch on board a naval vessel. He states that his ship received a wireless call for help from another vessel on which an explosion had occurred. One man was killed and several burned by escaping steam. Though the vessel was 125 miles away, Lieut. Brown gave directions for first aid treatment by wireless.

Lieut. Brown says he enjoyed the trip, though the voyage seemed more like a pleasure trip as the officers sat under the awning on the deck.

TODAY IS LAST DAY TO REGISTER CANINES

Licking county paid all legal claims arising out of destruction wrought by dogs during the year 1919 and transferred \$2000 to the county school board fund out of the fees received from dog registration according to an announcement made by County Auditor Wilson.

He has issued a plea for a more general registration of dogs for the new year. Under the law all dogs must be registered before Jan. 1. The fee is \$1 for male dogs and \$3 for females.

Auditor Wilson declares that the total value of animals killed by dogs in Ohio during the year just closed was greater than the total taxes paid for all purposes by Athens county in the same period.

Unregistered dogs may be impounded and killed by the sheriff or his agent, the law provides.

The Federal Administration will return the railroads with increased equipment—of problems.—Boston Herald.

ASKS \$2053 DAMAGES; CONTRACT VIOLATED

Horace D. Biedgett has filed a petition in common pleas court through his attorneys Fitzgibbon, Montgomery & Black, against The East Engineering company, in which he alleges there is due him as damages the sum of \$2,053.25 for failure on the part of defendants to perform their part of a contract entered into between them on Sept. 2, 1919, by the terms of which plaintiff was to furnish a dozen teams at 85 cents per hour and his own services as foreman at \$6 per day, for the construction of a reservoir near Bucyrus, O. Plaintiff alleges he went to great expense preparing for same and the defendant later informed him that he had made a contract with other contractors and refused to allow the plaintiff to perform the work.

"I have 200 hens, including late pullets not old enough to lay, and had been getting 25 to 30 eggs a day. Then I tried Don Sung in the feed, and am now getting 114 to 114 eggs a day." Mrs. Fessie B. Ropp, R. R. 2 Little, Ind.

Mrs. Ropp got this increase of 7 dozen eggs a day in the middle of winter. At 50 cents a dozen, 30 days a month, this makes \$105 extra income a month. The Don Sung for her 200 hens cost her about \$250 per month. You can see how well it paid her, and we'll guarantee it will pay you. Here's our offer: Give your hens Don Sung and watch results for one month. If you don't find that it pays for itself and pays you a good profit besides, tell us and your money will be promptly refunded.

Don Sung (Chinese for egg-laying) works directly on the egg-laying organs and is also a splendid tonic. It is easily given in the feed, improves the hen's health, makes her more active in any weather, and starts her laying.

Try Don Sung for 30 days and it doesn't get you the eggs—no matter how cold or wet the weather, your money will be refunded by return mail. Get Don Sung from your druggist or poultry remedy dealer or send 30 cents for a package by mail prepaid. Burrell-Druggery Co., 294 Columbia Bldg., Indianapolis, Ind.
